#### Winters-Pappan Bout Draws Large Crowd.

The Winters-Pappan bout at the Lyceum Theater last Friday night drew one of the largest crowds ever assembled in that building. The door receipts amounted to something like \$427, the receipts were divided 40 and 60 per cent. Winters received as his share about \$202, while Pappan got \$185.

The exhibition met the favor of nearly every one attending and it is safe to say no one left the building with the impression that it was "a frame up." As boxing bout it gave satisfaction.

The bout was a snappy one from the start, each man believing himself to be a shade better than his opponent. Only once in the 2nd round did it appear as though the Indian had a chance, when he handed Winters it right and left simultaneously at will. Winters terrific right swing proved the "bug bear" which eventually decided the contest, this he brought to bear in the 3rd round dropping Pappan to the mat, the gong sounded and the Indian was carried to his corner. The Indian entered the ring in the 4th round in a dazed condition and lasted only a short interval before the count pronounced Winters the victor.

Winters will leave for Dallas, Texas, in a few days where he is signed to meet Bobby Wall. Wall has a states wide reputation as a boxer and as Winters gives much promise of being in the 1st rate class, the go will be watched with a great deal of interest by the sport admirers of Clovis. Pappan asserts his knowledge of the fact that he over matched himself with Winters in as much as Winters entered the ring 13 pounds better in weight but says he was sure the match would draw a big house and that was what appealed to him more than any thing else at that time. Pappan is now out with a challenge at 122 ringside. He met Winters at 133 ringside. If Pappan makes the weight he will be known the future as a feather weight.

#### Play Their Last Card

The Roswell News a democratic paper is trying to scare Taft into opposing Pope's confirmation, by threatening to send up a Roswell delegation from the Pecos Valley to the National republican convention. To say the least this is about the poorest bluff, as yet ever pulled off by the democratic opponents of Mr. Pope.

#### Tippecanoe Concert

##### Company

On next Saturday night, the 17th, five young ladies comprising the Tippecanoe Concert company will be in the city and will render a program composed of readings and music at the Lyceum that evening.

We can recommend these concerts to the public as being refined, clean and highly entertaining. They are selected from an extensive list of applications of different talented troupes who are taken up with the trip along the Santa Fe line, with the accommodations offered at the Harvey houses and other attractions that make the trip a very enjoy-

able one.

Josephine Sims, violinist; Abbie Biedewolf, soprano soloist; Katherine Kennedy, Reader; Ruth Vogel, contralto and accompanist; Bertha Peet, Mezzo Soprano and Manager.

#### Star Hotel Being

##### Made Modern.

John W. McCarty, of the firm of Mansfield-Claiborne Co., and former owner of the Crescent Hotel, has purchased the Star Hotel. He is having the house overhauled and put in tip top shape to accommodate the public with the very best of service in the hotel line. The house will be made modern in every respect, having bath, hot and cold water, electric lights, etc. The rooms are large and well furnished. Mr. and Mrs. McCarty will have charge themselves, serving meals to the public in connection with their regular boarders. These people are well known as first class hotel people and doubtless will have all the business they can handle in a short time.

#### Novel Invitation

The following invitation received by our fellow townsman, Tommy Davenport, will be amusing to all, but especially so to the old timers who have known the situation as a reality.

##### Invitation.

You are invited to attend the Cowboy's Ball, To be given Feb. 16 in the Red Man Hall.

Our country's undergoing a great change,

This will be the last Roundup in the Highlonesome Range.

Let's roundup our stock and be ready to go,

For we've got to give way to the man with the hoe.

There'll be no chuckwagon, we'll eat in a shack,

And turn our ponies to a kaf-fir corn stack.

We'll throw them together on the hill,

Just east of old number eleven windmill,

Not far from the edge of the sands,

Where the town of Knowles now stands.

Billy O'Neal the old Pool Boss,

Will meet you at the gate and make you come across.

Will Franklin will lead us on the drive,

As soon as the stray men all arrive.

Jack Heard will carry the tally book,

And see that the stray men all get to look.

Be sure to come and get your stock,

The nearest water will be the Cap Rock.

##### For Sale.

For sale or trade—Shallow water land 160 acres improved, 80 acres unimproved ten miles south east of Portales. Will trade for live stock or automobile part on time if desired.

#### Thinks He Sees Opportune Time to Strike, The Journal Man Takes Crack at Outgoing City Council.

In order that he might hit the sentiment of a few pessimistic souls, who see fit to condemn the administration of the city officials by exposing what he would have you believe to be a graft and improper disbursement of city funds, thus ingratiating himself with the voters, at the coming city election.

The Journal man takes a lengthy shot at members of council, and mayor; says city is busted and pronounces private Electrical concern as a monopoly having the city by the throat. There is cause to suppose his attack to be one of personal spite, inasmuch as this Electrical concern forced or threatened to force the payment of a debt against members of the aforesaid company. The editor of the Journal would have it appear that his heroic efforts are in behalf of public interest, while as a matter of fact the rub comes and the sore place starts as a result of the lack of the 'long green' denaro only flowing gradually into the pockets of the aforesaid designated city publication, while their wish would be to have the bottom fall out.

It is not our fight and it seldom is the case for a newspaper to stand by a council that has discriminated in favor of the opposition paper in giving them the city printing, but we do believe that in so doing, they were sincerely of the opinion that politics should play no part in the city administration, and we are certain that these same public servants have labored over auditing books on Sundays and at nights without receiving one iota of thanks from the public and receiving no remuneration except the meager pittance allowed for such service.

We believe the seed thus sown by the members of the present council will live afterward and that for the public good no politics will be allowed to figure in the harmony and united efforts so desirable for the welfare of the city of Clovis in the future.

#### W. C. T. U. Protest.

Physical education is a department of W. C. T. U. work which seeks the highest possible physical development under circumstances of health, upon which is based the most successful moral and intellectual growth of the child. We hope the time will come when physical culture will be taught in every school in the country. We believe also that the body is the "living temple" which should be kept pure and clean for better service than the bruising and battering of the same; and that the scourging of the body by the religious fanatic, as well as the exhibition of scientific skill in the abuse, is a relic of barbaric ages; therefore, The Woman's Christian Temperance Union of Clovis desires to enter a public protest against this city becoming a center, for "Boxing Bouts or Prize Fights. We appeal to the citizens of the city for amusements

of a higher order, believing that the abolition of the former class is one step towards the time when there "shall be no more war" and that "Peace on earth, good will to men" will be practiced as well as preached.
